PUT POVERTY IN DETENTION

CWS SCHOOL SAFE ZONES

Schools are the bedrock of a community’s health, well-being and future. They are a centering point and a place to learn and commune for the greater good. Yet the challenges that impoverished schools face can be steep. When a community struggles with limited access to clean water and sustainable food sources, it is often reflected in the school buildings. A vibrant learning environment requires infrastructure, supplies and dedicated teachers.

Through the School Safe Zones program, you are making these requirements a reality. With your support, more students have access to clean, safe spaces in which to learn.

SAFE SCHOOLS. BRIGHT FUTURES. CREATE THE NEXT SUCCESS STORY!
