When Principal Kabaka arrived at Gosese Primary school in Kenya, students were learning under trees. The few existing classrooms were crumbling. Principal Kabaka got help from the community and people like you through CWS School Safe Zones. The school grew from 47 students to 271 students in six years. Now Principal Kabaka and his staff have what they need to succeed. They have since changed the lives of everyone in the community.

Your support will empower students, their families and their whole whole community.

HERE’S HOW:

BUILDING
WATER SYSTEMS
MENTORSHIP
SUPPLIES

A School Transformed

When Principal Kabaka arrived at Gosese Primary school in Kenya, students were learning under trees. The few existing classrooms were crumbling. Principal Kabaka got help from the community and people like you through CWS School Safe Zones. The school grew from 47 students to 271 students in six years. Now Principal Kabaka and his staff have what they need to succeed. They have since changed the lives of everyone in the community.

SAFE SCHOOLS. BRIGHT FUTURES.
CREATE THE NEXT SUCCESS STORY!
